SEVENTH YEAR.

MAYSVILLE, KY., MONDAY, MAY 16, 1898.

ONE CENT.

Short Circulation
LARGEST IN THE CITY.
Purely Business!

The columns of a newspaper represent a cash value. No publisher can afford to give advertising "notices" free any more than a merchant can toss over his counter free gifts of dry goods or shoes. A newspaper's legitimate business concerns, its circulation, its stock in trade, and its advertisements should be paid for, no matter in what part of the paper they appear.

MAYSVILLE WEATHER.
What We May Expect For the Next Twenty-four Hours.
THE LEADER'S WEATHER SIGNAL.
White extremely—fair!
Blue—rain or snow!
With black above—will warm
snow.
If black's beneath—golden will be!
Unless black's shown—no chance we'll see!

THEY ARE INFORMED.
The boys that whisper, soft and low,
"I never loved another,"
Must think the maidens do not know
Ananias has a brother.

West Enders have been for many moons troubled greatly from lack of pressure in the water mains; for several days and nights workmen have been digging to locate the trouble. Saturday they found a small fence rail, a baseball bat or so, a few soldier-buttons, a chunk of stone and several other choice bits of bric-a-brac in one of the mains. These were carefully removed,—and so is the trouble!

THE LEADER DOES NOT FAKE ITS READERS

REAL NEWS!

As a war newspaper, Saturday's LEADER was all that could be desired;—and that's the way it will be as long as the war lasts.

The "loop" service is picturesquely fictitious at all times; Saturday it was pre-eminently so,—or rather it was fictitiously picturesque. Speaking of the bombardment at Cienfuegos it said—

"The earthworks, guns and Spaniards were seen flying in the air."

Gewhilkinks! What a magnificent sight that must have been! And how Uncle Sam's tars must have enjoyed seeing three or four big earthworks sailing through space, to say nothing of the big guns that were soaring skyward, and the "sons of guns" the Spaniards that were "flying in the air!"

If you want "pointers" the loop service has a supply on pay tap; and here's another—a regular daisy—from the same dispatch—

"Captain Maynard of the Nashville was struck on the head by a solid shot, but the missile glanced and only inflicted a slight injury."

There's room for a damage suit. The conclusion is almost inevitable that Captain Maynard must have a wooden head, or that the Spaniards who were not then "flying in the air" must have struck a lot of rotten pumpkins which they were firing at the American ship.

But why enlarge on the peculiar peculiarities of a "news" service that will have news—if it has to send "Spaniards flying through the air" to get it.

THE LEADER'S splendid telegraphic service second and third pages covers the whole field of news up to 9 o'clock this morning.

Telegrams received after 10 o'clock today will be posted in front of the office for the benefit of our friends in the home.

Meanwhile, if you want news and not sensation, now is the time to subscribe—35 cents a month.

WILLIAM DAVIS:
How's that Chesapeake Coal? All o. k. The whole thing. Gives 35 per cent. more heat than any coal I ever burnt. Save me money! Well, I should think so: 35 cents on the dollar cuts running expenses down over a third. Make me rich! Don't mention it. Two hundred bushels will last longer and give better satisfaction in every way than three of Pomory. By long odds the best thing I ever got from Mayville. You say you will positively sell this Coal at the same price others get for Pomory? That's me to a t. y. Do I use much Pomory now? Don't get gay with me; you must think I have the roomies. Any old thing don't suit me; wasn't raised that way. Best regards to everybody. Good-bye. SATAN.

BLACK DRESS STUFFS

Summer Weaves of reigning fashions, for never were blacks so popular. This our luck to find—Right different patterns of Mohair Jacquard—a satin-gloss ground, with dead black figures. Width 40 inches. Price 90c. When you see it you'll agree with us it would be cheap at 75c. There are black goods at all grades 50c. and down, and up. Come see these newest things.

WINDOW SHADES.

Seems like a waste of time to mention these goods, there's such a demand for them and prices are so low. Possibly there's a person within the reach of this paper who is not aware this store is ready for shades. We're after that person and this special bargain in shades ought to fetch him. Seven-foot oil shade, best fixtures, worth 35c. for next week 25c.

Captain William Richardson of Parkersburg has sold the Butte-Balard to the Irons and Ashland Transportation Company for \$3,000.

The Government has advertised for 3,000 tons of coal (five barges) for use at the Louisville and Portland canal. This is the amount consumed at that place every year.

The rivermen contend that the Government should dredge the bar under the proposed open dam inclosure at Lock No. 4 in order that boats be furnished with an unimpeded passage.

The Pittsburgh Coal Exchange has approved the plans of the Belaire and Benwood River, which will span the Ohio river at Belaire. The channel span will be 850 feet wide. This is practically the first victory for the river men for wider bridge spans.

It is definitely settled that the Hudson will run in the Coney Island trade again this season. She has given such unqualified satisfaction during the past two years that Captain Les Brooks was determined to secure her again. DELICATE WORK. Dr. T. M. Pearce going to the Front in His Chosen Profession.

The following is taken from The Union Agent of Covington and is a neat comment to a Mayville young man:

"Our representative has in the past few days been a witness to the various stages of a delicate piece of work that was being performed at the Covington Dental Parlors of Drs. Lowe & Pearce, at the corner of Pike street and Madison avenue, a resident of Covington, O., a gentleman 70 years of age, being the bridge being broken, rendering the surface flat and on a level with the eyes. By the use of vulcanite a false nose was made and placed in position. The skill displayed in the performance of this work was remarkable, and so successful that the artificial work cannot be detected at short range, the blending of the false nose being in such perfect harmony with the complexion of the patient."

Dr. Pearce is a son of Mr. Bert L. Pearce, and his many friends of this city will be glad to learn of the success with which he is achieving.

MASONIC PROPERTY.

The Court of Appeals Decides That It Cannot Exempt Taxation.

The Court of Appeals has rendered a decision reversing the Campbell Circuit Court in the case of the City of Newport vs. the Masonic Temple Association.

The Court holds that the property of the Association except that used for Lodge rooms or for purely charitable purposes is subject to taxation, and that the section of its charter granted many years ago exempting all of the property of the Association was repealed by the new Constitution.

And yet the Court holds that certain schools and other institutions that are conducted for pay are not liable to taxation.

WORDS OF WELCOME.

An Excerpt From the Address of Dr. A. G. Browning.

GOOD WORDS FOR OUR GUESTS.

At the recent meeting in this city of the Kentucky State Medical Society an open session was held at the First Baptist Church, on which occasion Dr. A. G. Browning delivered the opening address.

It is with pleasure that THE LEXINGTON presents to its readers a part of the Doctor's remarks:

"... With a measure of pride easily pardonable, I would like to have received within my borders in time past her even share of cultured delegates representative of all that is best in religion, benevolence, science and art. They were welcome guests, all; their colorful pleading epochs by willing hands marked with the whitest of all traditional white stones. But I'm very sure I accurately voice public sentiment in the assurance that to none has our city's greeting gone out with more glad acclaim than to you, gentlemen of Kentucky's State Medical Society and invited guests."

And its most fitting, most properly so. For in yourselves pre-eminently representative, wearing gracefully and well the professional mantle bequeathed by illustrious ancestry—poor peers of the best you embody a calling which, honored even in its infancy by command of God himself, has come through the centuries in every clime and clime without dissent or challenge squarely on a plane with the grandest benefactors of this world's brightest epochs.

No merely dorsal rhetoric this, gentlemen, as you will all best willing testify. Legitimate medicine and its allies, emerging from doubt and experimentation—strong, real and reliable—once since passed beyond needed type, or dubious or dorsal display, its achievements are all too plain to speak for themselves. More words, even of its most ardent devotees! Further, I assume that each of you, within the world's wide domain of humane endeavor may individual elyog to come to miscary or become individual elyog to come to miscary of our rank and file it comes more frequently than to others to exact the role of the "doctor" and as it is in the picture Doctor MacLure—immortal as he has been—has made himself and his uncrowned hero—the light and genial author can yet claim "no patent on nothing" since his words, like the very words—are full of such as he. True, the halting but unstudied prayer of Patrick Drumhough at the bedside of his dying benefactor stands unrivaled in genuine pathos.

A mighty God, divine he had on Doctor William MacLure, for he's no been been anybody in Drumhough. He kind the him as he's been the use as for forty years. We're sinners at it day of May 1908.

MATTERS OF TONNAGE.

Size of Some of Our Battleships Compared With Ohio River Boats.

The size of all warships is given in tons of displacement, the usual manner of estimating the size of all vessels.

The displacement is practically the weight of the entire ship and cargo. It is estimated by figuring the submerged part of the hull and calculating the weight of the water displaced thereby.

The Queen City, well known along the Ohio, has a rating of 1,400 tons. She is 235 feet in length, with 44 foot beam and 64 feet depth of hold.

This tonnage would figure very small among battleships. The Iowa, for instance, measures over 11,000 tons, and draws 24 feet of water.

The Queen City is about the same tonnage as the little gunboat Wilmington, that got into a scrape on the coast of Cuba, one of the smallest gunboats in the Navy.

The Winslow, the torpedo boat that was injured, is not as big as the ordinary ferryboat.

The Indiana, Iowa, Massachusetts and other first-class battleships, are eight times as large as the Queen City. The Texas is nearly five times as large. The New York and Brooklyn are more than six times as large. The Atlanta, Baltimore, Cincinnati and Boston are more than twice as large.

Attention!

All members of Escort Squad must be at Masonic Temple this evening at 7 o'clock sharp in full uniform except chapeau.

SOMEWHAT SALARIED.

A Few Other Gentlemen Who Get Most as Much as the Editor.

J. M. Toucey, General Manager of the Vanderbilt system, gets \$50,000 a year.

C. M. Schwab, President of the Carnegie Iron and Steel Company, gets \$60,000 a year.

Frank Thomson, President of the Pennsylvania Railroad Company, gets \$50,000 annually.

John A. McCall's salary as President of the New York Life Insurance Company is \$50,000 a year.

Alexander Miller, agent of one of the great steamship lines between New York and Liverpool, gets \$50,000 salary.

Conrad H. Mathieson gets \$75,000 a year as President of the Chicago Sugar Refining Company, and he is only thirty-two years old.

Dr. William Bull, Dr. Polk, Dr. Sims and Dr. Wyeths, New York surgeons, have professional incomes of not less than \$50,000 a year each.

Manley M. Gillam was paid \$12,000 a year for writing the advertisements for John Wanamaker. He is probably the foremost advertising writer of the world.

J. J. Storrow, a Boston lawyer, who has made a specialty of electricity and electrical appliances and patents, makes \$100,000 a year out of his knowledge.

John E. Parson gets \$50,000 a year as attorney of the Sugar Trust. For organizing the Trust he was paid a fee of \$350,000, the largest single fee ever paid an attorney.

Dr. John Hall, Pastor of the richest congregation in New York City, has a salary of \$30,000 a year, which is increased to \$50,000 by his fees for christenings, weddings, etc.

E. W. Bok, Editor of The Ladies' Home Journal, says he receives \$25,000 a year.

As Br'er Bok is the only one who "says" he gets the salary named, he may be talking through his stovepipe hat; else he is jealous of the 000,018 a year that is "scooped in" by the ink-slinger of THE LEXINGTON.
